RESORT DUBAI

OVERVIEW AND DESTINATION

OVERVIEW

The Bvlgari Resort Dubai is an urban oasis, developed by Meraas, a leading Dubai-based holding company.

Exclusively situated on the manmade seahorse shaped island of Jumeira Bay, connected by a 300m bridge to central Dubai, the Resort is the destination of choice for visitors seeking the solitude of an island escape, the residential feeling of a private house, yet situated just minutes from the heart of the vibrant city and its cultural attractions.

As with all the Bvlgari Hotels & Resorts, the Bvlgari Resort Dubai was designed by renowned Italian architectural firm Antonio Citterio Patricia Viel. Both the interiors and exteriors have been created with the same detail and precision of a Bvlgari jewel: pairing rare, raw materials according to colour, texture and feel, and sculpting them into objects of enduring beauty. Styled with illuminated gardens and pools and resembling a traditional seaside Italian village, it blends Mediterranean landscaping with the natural surroundings of the shores of the Arabian Gulf.

THE RESORT

The 1.4 million-square-foot property is a first-of-its-kind development for Bvlgari, both in terms of scale and magnitude. With its Mediterranean village charm, the complex features the Resort, joined by six residential buildings of 173 sea-facing apartments, 15 private mansions, a Beach Club, and Bvlgari's first-ever Marina and Yacht Club.

The resort includes 101 hotel rooms and suites and 20 hotel villas, all exquisitely furnished with the highest quality Italian luxury furniture brands such as Maxalto, Flos, Fexform and others, in an expression of the quality of 'Made in Italy'. All rooms and suites have expansive views over the breathtaking Dubai skyline or the Arabian Gulf, with large balconies to truly soak up the magnificent scenery.

For guests looking for ultimate space and privacy, the resort's five categories of villa enable families and friends to create a bespoke experience. Ranging from one to three bedrooms, with options to connect villas, the properties vary from 175 sqm to 540 sqm in size, all with a personal butler service and private pool and gazebo. The 540 sqm Bvlgari Villa is one of the resort's highlights, ideal for dignitaries or small private functions. Features include a large

living area, a sunken bathtub and a private lush garden with a large outdoor swimming pool, to ensure guests are provided with every home comfort they could possibly need.

The 1,700 sqm BVLGARI Spa adds a further luxurious touch to the guest experience with eight treatment rooms and 25-metre indoor pool with full sea view through its magnificent floor to ceiling windows. Guests will enjoy the ultimate wellbeing experience, immersing in innovative treatments, therapies and grooming for both men and women, in addition to thermal and bathing experiences. Adjacent to the spa, a state-of-the-art fitness centre offers WORKSHOP GYMNASIUM signature training method: a results-driven approach that redefines the very concept of well-being.

In true Italian tradition, where excellent dining is a must, the resort offers several sumptuous offerings. Renowned Michelin starred Italian chef, Niko Romito, has curated a blend of modern and classical Italian concepts exclusively for Il Ristorante – Niko Romito, interpreting the exquisite flavours of Italy with modern simplicity. Working from his three-starred restaurant in Italy, and regularly counselling his personally-trained chef resident in the hotel, he brings to Il Ristorante – Niko Romito, a menu that expresses the Italian culture at its best.

In the same space of Il Ristorante – Niko Romito, guests will find Il Bar, where they can enjoy signature beverages at the quintessential steel and bronze oval bar, while soaking up the magical dusk on the outdoor terrace, with views sweeping across the Arabian Gulf.

On the top floors of the resort, guests could take one-of-a-kind Japanese culinary journey at Hōseki. With only 9 seats overlooking the Dubai's skyline, the Chef Masahiro Sugiyama, with over 157 years of family sushi traditions, offers a memorable gastronomic treat with the finest ingredients directly imported from Japan.

Guests can also enjoy a more casual dining experience embodied by a menu rich with Italian simplicity and flavours at Il Café, while the classically-designed Lobby Lounge offers the residential atmosphere of a living room where guests can enjoy Italian-themed teas and coffees in a relaxed setting, surrounded by sumptuous soft furnishings, coffee table books and famous icons of Bvlgari's rich heritage, a taste of modern Italian comfort.

The resort's beach club features private beach cabanas, a children's pool and Little Gems Kids' Club while an outdoor pool and restaurant, La Spiaggia, is the perfect spot to wind down by day or night. During the day, guests can enjoy a variety of international food and drinks, while by night, the beach club glistens under the lanterns and candlelight, and offers the perfect spot to enjoy the sea breeze.

Nestled on the end of the Marina, the world's first Bvlgari Marina & Yacht Club is a unique destination which overlooks a 46-boat harbour and recreates the charm of a Mediterranean village in the heart of the Arabian Gulf. Featuring amenities including the Yacht Club Italian Restaurant specializing in fish, the members lounge, outdoor pool and bar, and the first branded kids' club, the Little Gems Club, the Yacht Club is set to become an exclusive destination.

Whether guests are looking to host corporate events, intimate family gatherings or lavish weddings, the resort is not only a location to vacation, but the ideal events destination. The

RESORT DUBAI

350 sqm BVLGARI Ballroom located in the Yacht Club can be customised for large scale events and offers state-of-the-art technology. With a stunning sea view, this location is fit for bespoke special occasions and business events alike.

La Limonaia, the secret lemon-tree garden, offers guests a private country garden-style space with the quaintness of old Italy, while offering impressive views of the Dubai skyline. Perfect for intimate dinner for two, small private gatherings or celebrations, it brings a little of the Italian ambiance to the shores of Dubai.

BVLGARI II Cioccolato boutique, offers the renowned 'chocolate gem' creations, while the resort's concept store, La Galleria, carries the sophisticated Bvlgari Le Gemme perfume collection together with a large selection of items from top niche local and international designers, to complete the resort experience.

Conveniently situated in the stunning Jumeira area in the centre of Dubai, the resort is just a short drive from many of the city's attractions. Slightly further away on the north side lies the magnificent Al Fahidi Historical Neighbourhood along Dubai Creek, where the city's flavours, culture and diversity truly come to life, while, on the other side, the trendy areas of Dubai from Downtown to Dubai Marina and Jumeirah Beach Residence, are only a few miles away.

DESTINATION

Dubai, a well-known crossroad since ancient times, has diversified both into the home of a majority expatriate population from every part of the globe and as one of the most sought-after tourist destination in the world.

This multi-cultural richness is reflected in Dubai's aesthetic vibrancy, its impressive cityscape including the world's tallest tower, exciting entertainments and a growing art scene, that will reach its peak in 2020 when the city will host the Expo 2020 Dubai.

Originally home to fishermen, traders and pearl divers, Jumeira's maritime tradition was born of sun, sea and precious stones; its people beginning Dubai's prosperous trade with these riches of the Earth. Bvlgari is proud to offer a sparkling new jewel of hospitality to local and international guests with the Bvlgari Resort Dubai - a jewel created with its very own Italian interpretation of luxury.

ARCHITECTURE AND DESIGN

THE CONCEPT

Renowned Italian architectural firm Antonio Citterio Patricia Viel, which has created all the Bvlgari Hotels & Resorts to date, designed the Bvlgari Resort Dubai with a purely Italian style. Crafting the property like a fine jewel, the architects chose rare, raw materials according to their colour, texture and feel, sculpting them to shine, beautify and endure – creating a peerless example of luxury hospitality.

The 1.4 million-square-foot Bvlgari Resort Dubai is a first-of-its kind development for Bvlgari, both in terms of scale and magnitude. With its Mediterranean village charm and gardens, the island property blends traditional Italian design with contemporary architecture, embellished by Middle Eastern touches in line with its Dubai location.

The island is man-made, the sleek profile of the 'seahorse' defining the arcs of sand and rock; an urban oasis and a highly sought-after destination.

The Bvlgari Resort Dubai is designed with the finesse of a jewel in the most perfect bay of this perfect site. The hotel building and the yacht club pavilion are the most precious gems or the clasp of a small necklace composed of glittering architectural gems located along the promenade of the marina.

The villas, located on the shoreline, offer a unique experience among the fragrant gardens of their private courtyards, the deep beachfront and spectacular skyline of the city.

Halfway in between the creation of a goldsmith and a sophisticated natural creation, the coral texture characterizes the two main buildings of the hotel.

Created on the overlay of horizontal lines, building facades are defined by the lively shadow pattern of coral-like sunscreens, shiny and light like porcelain, though not to be confused with the white marble richly veined with black and gold arabesques of the walls of the hotel podium.

BVLGARI

RESORT DUBAI

A fine oak wood surface, with long and thin planks, recalls the deck of a ship and clad the interior surfaces. The transparency of the facade, with its almost invisible large sliding doors, completes the perfect readability of this building.

While the hotel is broken and articulated to perfectly fit the profile of the promontory which pushes it towards the horizon, the yacht club pavilion rests between the hanging gardens and pools of water with its simple geometric shape, enriched by its envelope built in large vertical transparent panels alternated to stone and teak wood.

The architectural language of the residences is defined by the overlapping wooden terraces which contain the continuous ribbon of the facade interspersed with large glazed sliding doors.

This sequence of overlapping, but not aligned planes creates a harmonic and complex disorder, communicating a truly elegant but not formal environment, exclusive but open to spectacular views of the sea and the skyline.

The project aims at integrating with the shapes and intentions present in the island in an intimate way up to becoming a part of it: the use of a limestone reminiscent of the golden sand of the desert, but also sculpted architecture of Southern Italy, solves the continuity with the natural material that makes the island. The boundary walls, the podiums and the most solid parts of the system are clad in golden limestone; lava stone and basalt paving create a refined graphic contrast for public space, treated as an "inner" urban environment.

This project collects icons of great communicative power, the shadows of the "architectural coral" on the vein of Arabescato marble, the "pool full of jewels" abandoned at its bottom and the bold, funny and joyful, Bvlgari luxury.

ITALIAN SPIRIT

In the spirit of vintage constructions from the 1930s, architects Antonio Citterio and Patricia Viel hand selected or custom-designed every detail of the resort for consistency, comfort and purity, and to maintain an uncompromisingly Italian style throughout.

Each high quality piece, from the marble bathtub to the sculpted door handle, is incorporated seamlessly with utmost discernment. In this way, the Bvlgari Resort Dubai was created by one hand, one style, one ethos; the pure integration of an Italian soul, coupled with Bvlgari's superior approach to luxury.

BVLGARI

RESORT DUBAI

All Bvlgari Hotels & Resorts are created with this focus on preserving several iconic Bvlgari characteristics throughout, while simultaneously incorporating the uniqueness of each destination.

Using a light colour palette and a concentration on Italian marble, the firm capitalised on the natural light in Dubai.

At the same time, the architects provided shade from the Dubai sun using brise soleils or matte white lacquered steel parapets – a nod to the traditionally Arabic approach to sun shading which became an iconic part of the resort's architectural design.

Modern and minimalistic, the Bvlgari Resort Dubai layers superior quality materials with tasteful Bvlgari touches. Incarnating bold contrasts, clean, regal lines, and the ubiquity of spaciousness, the property maintains an impeccable elegance, creating a continuity that permeates the property's every detail.

UNEQUIVOCAL LUXURY

In every Bvlgari creation, comfort is of utmost importance. In its jewels, the Roman designer insists on wearability; in its watches, ease of performance. For the Bvlgari Resort Dubai, a supreme hotel guest experience is paramount. Before Antonio Citterio Patricia Viel partnered with Bvlgari to create a new hotel experience, the architectural firm was known for its unrivalled luxury home design.

Kindred spirits in their approach to luxury living, Antonio Citterio Patricia Viel and Bvlgari wished to create a whole new hotel concept, geared towards exceptional guest comfort, convenience and services with undoubted Italian flair. Building this concept from scratch, their contemporary design recreates true comfort in the midst of luxury across the hotels and resorts. Throughout the Bvlgari portfolio this concept is seen in innovations such as the rooms' square shaped floor plan to allow windows of natural light; a niched alcove doorway and entry vestibule for privacy and soundproofing from the bedroom; a walk-in closet off the vestibule for separation of space; multi-sectioned bathrooms divided into a large shower and vanity; large toilet area with optional privacy, an open-space bathtub; and a flow that renders the living experience something more akin to apartment living. Each room boasts large windows allowing guests to bathe in the light of Dubai's long bright days, while black-out curtains allows them to shut out the light and recover from the jet-lag in the perfect privacy of their personal sanctuary.

The designer furniture in every room and in public areas, is one of the finest

BVLGARI

RESORT DUBAI

Italian brands, such as Maxalto, Flos, Flexform, B&B, created from the most exquisite materials. In the bedrooms, a vanity provides excellent lighting and space, while on the balcony one is enveloped by a sense of peace and tranquility.

BVLGARI ICONS AND ETERNITY OF ROME

Few places in the world can attest to the durability of construction that Rome is famous for. Bvlgari, born of Rome, replicates the eternity of its homeland by investing in premium materials. From travertine marble to shining onyx, the Bvlgari Resort Dubai relies on the extensive use of fine materials and finishes to establish the durability and timelessness incarnated by its home country.

Warm, polished woods, rare, hand-selected marble, and superior textiles establish the property's shining, pastel grandeur. Meanwhile, the residential furniture in every room hails from Italy's most outstanding luxury brands, each piece designed or chosen by Antonio Citterio Patricia Viel, and often tailor-made for the property.

The sheer amount of detail that goes into each resort is exemplified in the exquisitely unique cuts of marble used as structures and decoration throughout the Bvlgari Resort Dubai. During its construction, architects and artisans traveled extensively to research and hand-select singular marble slabs at quarries, coming both from Italy and every part of the world.

From the world renowned Italian city of Carrara the architects selected the finest quality of 'Arabescato' marble for the external walls of the resort, 'Breccia medicea' for the Lobby and 'Calacatta Viola' for the La Galleria floors. The rooms' bathrooms are covered with 'Trevi' travertine from Tivoli that echoes Rome's grandeur, while a scenographic 'Portoro' wall is the Il Bar backdrop.

A 'Shanxi Black Granite' from Mongolia covers most of the public areas' floors while the 'Imperial' green marble from Brazil enriches the walls of the boardroom.

In the spa, made of 'Grey Vicenza' stone walls, the reception desk is made of the most precious Green Onyx from Iran cut with the 'book matched' technique that allows a near mirror image of its veins and peculiarities – a true marvel of nature.

The Green Onyx is also present on one of the hammam walls while the 'Aphyon' marble for Turkey takes centre stage in all the others parts of the room.

BVLGARI

RESORT DUBAI

The Villas, with walls made of Limestone from India, feature private pools made of rare 'Green Sukabumi' stone from Indonesia.

Working the marbles is a process comparable to the creation of pieces of Bvlgari jewellery. Beginning with a rough stone, it is then crafted, cut and polished with care and experience, into a fine jewel.

While the Bvlgari Hotels & Resorts collection has evolved to include a new location, a Bvlgari property is always born of the same Roman spirit. This is reflected in iconic brand characteristics that are familiar, emblematic and unchanging. Key touches identify and strengthen the brand across its portfolio, powerful in their design distinction, and expected by Bvlgari guests.

In every property, guests find a similar design philosophy: clean lines, peerless materials and furnishings, and a welcoming feeling of spaciousness. Iconic Bvlgari photographs, often of vintage celebrities dating to the Dolce Vita, are framed above common areas with a nod to BVLGARI's red-carpet connections. Original jewellery sketches from the Bvlgari archives are placed tastefully within rooms or in hallways, recalling the more than 130-years of Roman jewellery design history.

Throughout the property, a repeated use of the custom-design 'Maglia Pantheon' mesh pattern recalls the ornamentation of the historic Roman Pantheon's floor, as it is a part of the architectural tradition of Baroque Rome: an inexhaustible source of inspiration for Bvlgari. The pattern features intricate bronze lattice-work, as well as Bvlgari's eight-pointed star motif which appeared first as an inlay in the vestibule of Bvlgari's flagship Via dei Condotti boutique.

The eight-pointed star, inspired by the Campidoglio floor in Rome, shines in the lobby of The Bvlgari Resort Dubai, as a now familiar emblem of the brand.

The oval Bvlgari bar is an indispensable icon within the Bvlgari hospitality collection. Its form is rumoured to be inspired by the famed Fontana della Barcaccia fountain, located just outside Bvlgari's boutique in Rome's elegant shopping street, Via dei Condotti.

LANDSCAPING

Recalling a Mediterranean garden, the luxurious low-rise design of the Bvlgari Resort Dubai creates an earthy, lush and welcoming space, and a contrast to the icons of the more urban, high-rise Dubai landscape. Winding throughout the property, native and imported plants, such as Palms, Olive, Lemon trees, Rosemary bushes and flowers bring colour and life to Jumeira Bay. Bvlgari's landscape designers brought hundreds of trees onto the

BVLGARI

RESORT DUBAI

island, including Australian baobab trees, to establish a natural, verdant setting, a Mediterranean garden in the middle of the sea.

The hidden gem La Limonaia, the 'lemon trees garden' homes the resident array of birds and wildlife. Sculpted as a geometric Italian garden with a birch walkway, La Limonaia recalls an ancient Roman garden design, framed by the marble of the resort. Lanterns with the Maglia Pantheon design subtly light the walkways for a space which is available for daytime or evening events.

RESTAURANTS AND BARS

The Bvlgari Resort Dubai offers various signature dining options, namely Il Ristorante – Niko Romito, Hōseki, Il Bar, Il Café, La Spiaggia and the Yacht Club restaurant.

RESTAURANTS

IL RISTORANTE – NIKO ROMITO

Open for lunch and dinner, the 105-seat restaurant offers spectacular views over the Bvlgari Marina.

The concept, created by the Michelin-starred chef, Niko Romito, is a celebration of 'Made In Italy'. Working from his headquarters in Italy and regularly counselling his personally-trained resident chef Giacomo Amicucci, Chef Niko Romito brings to Il Ristorante a menu that optimally expresses the culture, elegance and vitality of everything that is quintessentially Italian. Hailing from the Italian region of Abruzzo, Chef Niko Romito established a true 'canon' of contemporary Italian cooking by designing a concept which preserves his fundamental philosophy of simplicity, synthesis and a quest for the quintessence of flavour.

Premium ingredients are sourced from Italy, locally and internationally, for a gastronomic approach based on quality and simplicity. The best extra virgin Carma oil, an award winning organic olive oil produced in Italy, a venture partnered by the Bvlgari family, is the only one used by the chef.

On this theme of simplicity and Italian authenticity, bread is always the protagonist at the centre of the table, a key element of Romito's philosophy and the mainstay of the Italian food culture. With broths and the Antipasto all'Italiana that encapsulate a grand tour of all the regions of Italy to recodified versions of marinated beef carpaccio, homemade spinach and ricotta tortelli with butter and sage, whole baked turbot, tiramisù and many more, there is no doubting the roots of Romito's inspiration.

BVLGARI

RESORT DUBAI

Different menu options are available: à la carte and sharing menu with a curated grape pairing selection, of which there are over 400 Italian and international offerings.

An exclusive private dining room is adjacent to Il Ristorante, which opens up to a private terrace overlooking the marina.

BAR & LOUNGE

IL BAR

With its sophisticated atmosphere, Il Bar at the Bvlgari Resort Dubai was conceived as a gathering place for Dubai's elite.

Sharing space with Il Ristorante while featuring a Marina view, the iconic oval Bvlgari bar is rumoured to have been inspired by the famous Fontana Della Barcaccia, just a stone's throw away from Bvlgari's Roman boutique. It has become emblematic of the Bvlgari hospitality collection, interpreted in different materials for each property.

For Dubai, its shape is formed from a shiny chrome, offering a more sociable ambiance. Guests can enjoy signature beverage designed by our skilled mixologists or experience the renowned Bvlgari's Aperitivo Hour.

Custom-designed chandeliers hang in the ring shape of the emblematic Bvlgari logo while the intricate book-matched cut of black Portoro marble displays its mirrored-image veins as it serves to block car headlights at night.

In cooler climes, guests can take advantage of the Marina facing terrace overlooking the Yacht Club and ocean.

SPA AND FITNESS

Located on the ground floor of the Bvlgari Resort & Residences Dubai, the Bvlgari Spa is 1700 square-metres of luxurious wellbeing. Designed by Antonio Citterio Patricia Viel, it features a variety of relaxing amenities including indoor pool, hammam and 24-hour fitness centre with a Workshop fitness studio.

SPA

Renowned for its luxury treatments, the Bvlgari Spa features seven treatment rooms and a suite. The Bvlgari Spa uses only the highest quality products, such as La Mer, Maroc Maroc and Amala, using totally natural products held to the highest vegan standards.

The treatment menu combines Bvlgari journeys and a range of treatments for men and women, from facials to massage. The signature treatment is the BVLGARI Royal Lulur, an unforgettable journey of blissful relaxation. This three-hour treatment is known as an exotic indulgence. A body polishing and exfoliation treatment used by royalty in the palaces of Central Java since the 17th century, the treatment is an enduring luxury. An exotic blend of indulgent therapies for couples seeking a complete retreat, this regal experience for two takes place in the luxurious spa suite. Beginning with a welcoming foot ritual, followed by a skin-exfoliating lulur scrub of rice powder and spices, it is then followed by a full-body enveloping algae mask to refine the skin. Meanwhile, a cleansing facial takes place and feet and limbs are treated to an intensive reflexology massage. Guests then step into the Rasul to cleanse and refresh, before bliss resumes with a perfectly synchronized signature four-hand body massage, rich with exotic oils and herbs to complete this decadent, stress relieving and calming experience.

Infused with Italian sophistication and elegance, the Spa offers market-leading advanced treatments, prestigious memberships and a range of result-driven, yet authentic treatments.

HAMMAM

Following the wet circuit from the green onyx-lined changing rooms, guests can have access to the 41 square-metres hammam, inspired by traditional Turkish design. Created with Afyon marble surrounds, and an Iranian green onyx backdrop, the slab of which was cut in a book-matched style that allows a symmetrical, mirror image of its entirely singular veins, the smoothness oozes luxury. The hammam is also available for private booking.

POOL AREA

The highlight of the spa is a 25-metre indoor swimming pool with views over the ocean. In keeping with Bvlgari's attention to detail and the connection to its fine jewellery collection, the design of the adjacent Vitality Pool is based on Caracalla baths, which was also a point of inspiration for the BVLGARI jewellery Diva collection. Lined with shimmering green and real gold mosaic tiles, expressing Bvlgari's rich Italian heritage it is designed to cleanse and detox the skin with massaging jets of air and water, relieving tight muscles while increasing circulation. Cabanas with flowing sheer fabric line the pool, offering relaxation and a magnificent view; the perfect place to unwind after a spa treatment or swim.

RELAXATION & CHANGING AREAS

Adjacent to the treatment rooms are separate male and female changing areas featuring hammams, saunas, ice fountains and cooling showers - all connected to a relaxation room. The ice fountain, known as a boost for blood circulation and the immune system, adds magical sparkle to the relaxation area, its ice tumbling from the ceiling, resembling diamonds cascading down from above.

FITNESS CENTRE

Bvlgari's spacious state-of-the-art gymnasium is equipped with the latest Technogym cardiovascular and strength machines, with an additional free-weights area. With views out to the ocean, it is a bright and inspiring space to workout alone or with the resort's in-house personal trainers who are on hand to help guests and Bvlgari Spa members prepare for sporting events, achieve specific fitness and weight loss goals, or assist with the creation of life-changing fitness routines through the Workshop programme.

Founded by Lee Mullins, heralded as one of the world's best personal

trainers, Workshop pioneers a new level of comprehensive workout based on its innovative framework assessment, looking at both the body and mind, and the most effective ways to help clients achieve their best. Clients begin with a movement and nutrition genetic analysis to determine the type, duration and frequency of exercise that works best for them. Food intolerance testing then looks at 95 foods which may be holding back their goals whether they be performance, health or weight loss based, to ensure that targets are supported. Metabolic testing then uses an exercise bike or treadmill to determine what training intensity the client needs to work at to burn the most fat possible. A functional movement screening then helps to identify limitations, imbalances and asymmetries in seven fundamental movements of the body, including planks and lunges, that are key to moving optimally and in turn, maximising performance and reducing the risk of injury. Finally, a body composition assessment determines where an individual stores stubborn fat, in turn helping to identify hormonal imbalances and other key health concerns.
