History in the making

Gianni Versace created a fashion dynasty imprinted with a Versace vision. This began under the influence of his mother who owned a clothing shop where Versace would watch his mother make clothes and take inspiration from women who would shop there. He was a lover of architecture in the first place, a person who used in his fashion all the elements of the Baroque style.

Reminiscent of a 16th century Italian Palace, Palazzo Versace Dubai is the testimonial of the Versace Lifestyle. It is a hotel that arrives in a city, at most, only once in a generation.

The hotel's sleek architecture and refined interiors, featuring a selection of well-crafted Italian furnishings and textiles tailor-made exclusively for the Palazzo Versace Dubai, were designed by Donatella Versace. Featuring a striking entrance, high ceilings and landscaped gardens, the hotel is truly symbolic of the Versace lifestyle.

Located in the heart of Culture Village, less than 15 minutes away from Dubai International Airport and 8 minutes away from Burj Khalifa and Downtown Dubai, Palazzo Versace Dubai is conveniently located along the shores of the historic Dubai Creek.

Versace Lifestyle

Welcome to a place where each and every element of the 215 spacious hotel rooms and suites and 169 residences, embodies the Versace lifestyle and design philosophy combined with subtle traces of Arabian architecture.

The three outdoor pools are decorated with mosaic tiles and surrounded by palm trees and flowers. The beautifully landscaped gardens and unobstructed views of the Dubai Creek and skyline, make this luxury hotel an ideal venue for weddings and social events in Dubai.
