THE SMOKI MOTO MARBLING CHART

To assist you in navigating our diverse steak offerings, we've researched marbling scores from renowned meat-producing regions worldwide, culminating in Smoki Moto developing its unique measurement of the Marbling Score (SM) ranging from 1 to 10.

MARBLING SCORE GUIDE:

1 - 2: Lean with a robust game flavor.

3 - 4: Slightly fatty, especially in core muscles, offering great flavors.

5 - 6: The sweet spot, a perfect combination of flavorful meat and well-marbled fat.

7 - 8: Smooth and silky with distinct textures.

9 - 10: Cuts like butter, exceptionally rich, with a large amount of quality marbled fat.

EXPLORE OUR MEAT CATEGORIES:

CLASSIC KOREAN MARINADE:

These cuts are marinated in a blend of soy, ginger, garlic, and Korean pear, resulting in a full-bodied, sweet, yet savory flavor and a soft springy-like texture.

GRASS-FED:

Entry-level cuts boasting a gamey flavor with an enjoyable bite to it.

GRAIN-FED:

Our grain-fed cows start on pasture, then transition to a grain diet for 6 to 10 months, resulting in a tender yet flavorsome meat.

SIGNATURE DRY AGED:

Combining grass-fed and grain-fed cuts, we meticulously dry age each primal cut on-site using various techniques.

TRADITIONAL:

Hand-selected cuts are dry-aged for 30 days, enhancing the meat with a rich game flavor.

BUTTER-AGED:

Primal cuts are encased in butter and aged for 30 days, delivering juicy, flavorful, and tender meat with butter overtones.

KELP AGED:

These cuts are wrapped in Korean kelp seaweed, infusing the meat with salty ocean overtones and intensifying the flavor.
