

SINGLE MALT WHISKY

Malt whisky is the 'original' whisky of Scotland. It is made only from malted barley, in two (occasionally three) copper pot stills. A 'Single' malt whisky is the product of an individual distillery.

WHISKY OR WHISKEY

AMERICAN WHISKEY

Whiskey is made all across America, from Washington to Virginia. From sweet Tennessee whiskeys to spicy rye and unaged corn, the country uses a wide variety of grains in whiskey production.

IRISH WHISKY

The word 'whisky' comes from the Gaelic 'uisce beatha', meaning water of life. It is believed that Irish monks brought the technique of distilling perfumes back to Ireland from their travels, and then the Irish modified the technique to obtain this famous spirit.

JAPANESE WHISKY

If the finer points of Japanese culture can prove elusive to the Western psyche, much the same could be said for the country's whisky. While there may be echoes of Scotland in the distilleries of Honshu and Hokkaido, the big variety in production techniques results in multifaceted whiskies with an identity of their own.
